Banana, supplementary value of, in institution diets, 1229 (Abst.)
Bell's palsy, preservation of muscle function, 807 (Abst.)
Biologic facts in measuring orthodontic forces, 826
Bite plane, removable, use of, in treatment of deep overbite, 745
  wings preliminary to orthodontic treatment, 354
Blood coagulation, effect of saliva on, 277
Bone and soft tissue, metal in, 377
  reinforcement of supporting, in animals and man, 1136
Bones of face, fractures of, 432
British society for study of orthodontics, 605, 925, 1023, 1131

C

Calcium and phosphorus dietary regime, adequacy of, 711
  -phosphorus ratio in blood of children, 236
Canine, impacted and encysted, eruption of, 159
  malposed, 919 (Abst.)
Carcinoma of lip, clinical and pathologic study, 1015 (Abst.)
Caries, dental, produced in albino rats by inclusion of microfractions of arsenic in their diet, 180
    relation of vitamin D and mineral deficiencies to, 921 (Abst.)
Case analysis in orthodontic treatment, 538
  of deep overbite showing principle and application of removable bite plane in treatment, 745
  report, 92, 190, 290, 390, 491, 592, 692, 804, 916, 1011, 1117, 1224
Casting and molding, 1125 (B. rev.)
Cellulitis, 172
  postoperative, 173
  report of case, 803
  treatment of, 175
Central society of orthodontists, 203
Changes, dental, and facial growth, plastic and graphic technique for recording, 1027

Changes—Cont'd
in hereditary opalescent dentine, 272
within mandible and teeth in case of rickets, 484
Cheilosis due to ariboflavinosis, 809 (B. rev.)
Chewing as technique of relaxation, 1227 (Abst.)
Chicago association of orthodontists, 1238
dental society, 106, 203, 925, 1130
Childhood, thumb-sucking and finger-sucking in, 1229 (Abst.)
Children's dentistry, postgraduate seminar in, 1238
Chin retractor, construction of, 464
tailor-made, 461
strap, malocclusion as result of use of, in treatment of tuberculosis of spine, 1011
Chrome alloy attachments, 58
place of, in modern orthodontics, 49
Cinephotography and cinefluorography of masticatory apparatus in function, 205
Class I anomalies, treatment of, 1170
II, division 2, Angle, factors involved in treatment of, 865
III malocclusion, treatment of incipient, 518
Classification and treatment of cases caused by supernumerary teeth, 142
of dentofacial deformities, 230
Cleft, congenital, orthodontics as aid in repairing, 154
palate and harelip, skeletal anomalies associated with, 895
Cleidocranial dysostosis, studies and reflections on, 1014 (Abst.)
Cleveland dental society, 202, 307
Close-bite, caused by, bilateral lingual occlusion of mandibular arch, correction of, 664
Coagulation, blood, effect of saliva on, 277
Columbia University, certificates of proficiency in orthodontics, awarded by, 1237
Comparison of diets of children, soils, and waters in Kruisrivier, Beaufort West, and Alldays areas, in relation to dental caries, 696 (Abst.)
Concepts in diagnosis, changes in, 875
Condyle, mandibular, unilateral hypertrophy of, associated with chondroma, 494 (Abst.)
Congenital cleft, orthodontics as aid in repairing, 154
Construction of lingual and labial arches, principles involved in, 342
of nose by prosthesis, 92
Control of inflammatory conditions of oral mucosa during orthodontic treatment, 130
Correction, nutritional, as aid in overcoming growth defects in oral structures, 115
of bilateral lingual occlusion of mandibular arch causing extreme close-bite, 664
Crosby, Albert William, in memoriam, 101
Cyst, 1102
and malignant growths, 1105
dentigerous and multilocular, odontomas and adamantinomas, etiology of, 1190
dermoid, of ovary, teratoma, 390
hereditary epidermoid, of jaws, 673
retention, of lip (mucocele), 89

D

Data in pediatric field, 651
Deciduous and mixed dentures, treatment of, 255
Deformities, dentofacial, anthropologic aspects of, 218
Dental attrition, 1123 (Abst.)
caries produced in albino rats by inclusion of microfractions of arsenic in their diet, 180
development, factors of occlusion controlling, 955
surgery and pathology, 599 (B. rev.)
Dentine, hereditary opalescent (dentinogenesis, imperfecta), 267
Dentinogenesis imperfecta, 267
